THE Soochow, we are glad to notice, turned up all right to-day, so that the rumour of her having come to grief must be put down as having been started on the strength of the recent epidemic of

shipwrecks, THE Daily Press will be glad to learn that one of the possessions of Hall Caine, our contemporary's very own novelist, is the lantern borne by Eugene Aram on the fateful night of his historic murder.

"BLIND Tom," who for many years delighted the public all the world over with his clever performances as a musician, is passing his closing days in an asylum for mental treatment in the United States.

THE captain of the junk that saved so many of the unfortunate passengers from the wreck of the Namehow was presented with \$150 by the Namchow's supercargo, who furnished all of the survivors with free tickets to their several destinations.

Our second thrilling sensational novelette would have appeared to-day, but that we wished to give our readers the additional treat of an eighteen-penny stereo portrait of the author, and unfortunately there is a limit to the endurance of even dull unemotional lead. His face broke the block.

WE learn that the eminent German viriuoso. Herr Friedenthal, who was so indifferently Id treated by the musical public of Hongkong, had a most enthusiastic reception in Manila. He has since left for Singapore, and we trust he won't forget his promise to send us along that "orquestra of musical monkies playing Scotch back-pipe" as soon as he finds them.

WE regret exceedingly to learn that Capt. M A. Fremantle, of the Coldstream Guards, A.D.C. to His Excellency the Governor, died at Government House this afternoon. Lieut. Fremantle only arrived in Hongkong with Sir William Robinson on December 10th and has been alling for the past week. The cause of death we understand, was a severe attack of malaria fever. The funeral will leave Government House at 3 o'clock to-morrow afternoon.

Suggested by and based on the lines of Chamberlain's "Things Japanese," Mr. Dyer Ball's "Notes" display an amount of research and perseverance which speak volumes alike for the author's industry and acumen. But this book is more than a mere compliation; the author says in a modest preface that it is neither a glossary nor an encyclopædia, and his own experiences, obtained from a thirty years' residence in China, which are interesting and set out in a most readable style, quite removes "Things Chinese" from publications of the guide book order. We will make no attempt to review this volume in detail; it has to be carefully read to be thoroughly appreciated, and we can only recommend it to all who are interested in matters relating to China. The book has been capitally printed by Sampson Low, Marston & Co., Ltd., of London, and Kelly & Walsh, Ltd., are the agents in the Far East.

LABUK PLANTING CO., LIMITED.

An extraordinary meeting of shareholders in the above company was held in the Hongkong Hotel to-day. The Hon. P. Ryrle presided and there were also present Messes, J. H. Cox, F. Henderson, R. Lyali, Braga, J. B. Gomes, Ozorio, and A. S. Gomes.

The Chairman read the notice calling the meeting and asked shareholders to express their opinons as to whether the concern should be carried on, or leased to others, or wound up. Mr. Braga then went into the details of the

three alternatives at some length. Mr. Cox stated that according to last advices from Sandakan, somebody had been speaking of wanting to rent tobacco land, and the Company's manager in Sandakan thought they might lease him a few fields. What had been since done in the matter was not known. There was practically nothing to be done but to wind up the concern. Tobacco planting was a very expensive business; when

it paid, it paid; and when it didn't, it didn't. As there was not a sufficiently large number of shares represented, the meeting could not pass any resolution for winding up, and it was

consequently adjourned sine dis. The following is the memorandum circulated

by the General Managers :-As regards the 1890 crop of tobacco, being the first effort of this Company it was raised under the usual difficulties appertaining to such ventures in a new country. We st one time were led to expect that the yield would be 2,000 piculs for the 250 fields cultivated, and that the price then hoped for would have been about L. 1.50 to f. 1 70 per & kilo, equal to about \$06 to \$100 per picul, which on 2,000 piculs would have left a handsome profit. We believe tobacco planters do not generally expect to make a profit on the first and second years' crops. Experience has to be paid for in all new ventures. The weight of the 1800 crop actually shipped was close upon 800 piculs, being 3 piculs and 20 catties per field on the area cultivated by this Company. Of this out-turn 350 piculs sold at about \$43 per picul; the balance of the shipment -450 picula-sold at about \$64.50 per picul (the sale being at 67 and 100 Dutch cents per kilo), the 1890 crop thus netting about \$40,000,00, or \$10 a picul on the whole crop. The less on 1889 90 working account will thus

be unfortunately large. 1801 Crop.—Our late manager got into difficulties in April last, which of course sadiv interfered with the efficient carrying out of seed planting. He left British North Borneo in the middle of June, and we were fortunate in obtaining the services of Mr. J. H. Patteson, who had been manager of a neighbouring estate (cince given up). The crop at one time, notwithstanding the difficulties which occurred in April promised to be exceedingly good in weight; but the weather was too dry in October, and we are led by our manager to expect only about too piculs as the crop on 250 fields this year. Bu he reports the tobacco to be of a much finer quality than the 1800 crop, and therefore of more money value. You will have noticed by the accounts which have been sent to you that our available assets, (cash, debentures, &c) only slightly exceeded our immediate liabilities. This. balance has since been exhausted, but in order not to abandon the estate with a growing crop on the land, we, as General Managers, have made monetary arrangements whereby the 1891 crop of tobacco, will be put on the Amsterdam (or other) market next year.

The further expenses from 30th September, 1891, the date of the accounts sent to you, until the crop is shipped, up to say, the end of May, 1792, are estimated at about \$25,000.00: Of course, we cannot now tell what will be the sale value of this year's tobacco, but the ultimate result will, we regret to think, be equally as unfortunate as 1889/90.

Carrying on, or Winding up.-It is for the shareholders to consider whether in their made by all the Borneo estates lately (in

MONDAR'S ASSAULT-AT-ARMS.

WJOLF BENDOFF'S RECORD. It gives us pleasure to learn that the grand Assault-at-Arms arranged to take place (under the patronage of Major-General Digby Backer, C.B.) in the Theatre Royal, City Hall, on Monday evening next, promises to prove quite a phenomenal success. Mr. A. H. Wybert's roller skating performance is said to be quite a revelation to the uninitiated, and some very interesting boxing is expected from the talented members of the Lorne Athletic Club. The great attraction, however, will be the appearance in battle array of Professor Woolf 187.69 Bendeff, the "hero of a hundred fights," who will don the mittens first with Mr. W. Warke, the well-known amateur heavy weig t, and Mr. A Rodger, the accomplished winner of last year's Hongkong Amateur Championship. Mr. Bendoff. who by his modest and unassuming conduct has made friends wherever he has sejourned, has been training quietly since his arrival in the colony and will step into the ring in fairly good condition, although, of course, a bit above himself, while both his opponents are in first-rate fettle and are certain to give a creditable account of

themselves. Professor Bendoff's record will no doubt interest many of our readers who have a kindly feeling for the manly art. It is hardly necessary. to say that Bendoff is a descendant of the ancient prophets. He was born somewhere near Aldgate Pomp about twenty-nine years ago, and in his youthful days gave such promise of proving a flyer in the great game at which so many Israelites have won fame and fortune, that he was carefully taken in hand, and taught the rudiments of a science that is far more trying and difficult to acquire a mastery of than outsiders would readily believe. .. Bendoff's curly promise was fulfilled, and we find him first coming into prominence, as a pugilist in 1831, when he tackled Jim Griffiths, the Lancashire chame pion, at Hampton racecourse, in the bold style for £100, and was declared the victor after a contest lasting for nearly two lights. during which 50 rounds were fought willim [Mr. Bruce's gr.
